Markdown

Python enjoyer, C++ beginner, hard working student. I enjoy working on ambitious and creative projects. I am eager to learn new skills.

Work History

2024-06 - 2024-09

Junior Python Developer

Vumo, Kraków

- Main Task: Developed custom API tester and verifier similar to Postman for endpoint testing. Managed and executed through Jenkins on Docker image. Designed custom configuration files and internal tools to manage them, and extended Postman's functionalities with features tailored to specific needs. Managed by CLI, highly automated
- Side Task: Developed .NET-based automated application builder image with automatic push to JFrog Artifactory on every code push. Executed through Jenkins pipeline
